Innovative Technology Group opens Chicago branch

Office Concepts and Innovative Technology Group form a partnership in Chicago

July 27, 2010 - St. Louis, Missouri

Innovative Technology Group (ITG) has announced a new partnership with Office Concepts, a leading office furniture and service dealer in downtown Chicago. This partnership between Innovative Technology Group and Office Concepts will provide a comprehensive source of integrated facility solutions.

Frank Weir, the new General Manager for Innovative Technology Group, will be overseeing the business, operational and administrative functions of the new office.

“This new partnership with Office Concepts represents a great opportunity for the Chicago market,” explains Jim Scheer, President of Innovative Technology Group. “Having already completed many installations in the Chicago-land area, we felt it was necessary to open a new branch to provide our clients with the continued support and expertise, locally. The outstanding leadership and experience that we have found in Frank Weir ensures that our clients will only have the best support.”

The office is the second location for Innovative Technology Group, and forms a unique, integrated partnership with the largest and most respected Steelcase dealer in Chicago.

Innovative Technology Group is an audiovisual systems and networking integration company that designs and installs emerging technologies in a variety of facility environments. Corporate headquarters are located at the Color-Art Integrated Interiors facilities at 1325 N. Warson Road, St. Louis, MO.
